

Kelly-Creswell Intermediate Series 2000-AL Palletized Airless Striper

The Kelly-Creswell 2000-AL is a self contained airless center & edgeline striping machine offering speed and performance of a full sized truck mounted unit at a fraction of the cost.

Fits in a one ton fleet side or flat bed truck and is easily removable allowing the truck to be used for other vocations.

Reversible gun carriage for painting both center & edgelines.

Two high capacity 60 gallon paint tanks and a 15 gallon cleaner tank make in field color changes a snap.

8.6 GPM hydraulic powered, high pressure airless spray system.

Optional airport package for application of 36" lines

Operate one and you will understand why Kelly-Creswell is the name that has defined striping since 1937.

- Rack & pinion carriage steering standard, optional hydraulic
- M40D skipline controller with footage counters is standard equipment
- 750 lb pressure glass bead system
- Pneumatic carriage lift
- Two KC-700 automatic airless spray guns and two KC-600 glass bead guns standard
