

# Kelly-Creswell Truck Series

## WV6-AL

### Airless Stencil Truck

The Kelly-Creswell WV6-AL is a self contained painting system designed to perform in-street legend marking and curb painting.

Hydraulic powered airless paint system, self rewinding hose reels and tip bath increase work efficiency.

Capacity to carry a full day of material on board including paint, reflective beads, stencils and safety cones.

Standard unit comes equipped with one paint pump, optional additional pumps offer multiple colors without cleanout.

Stencil rack is standard; available in 36", 48" or 60" high configurations for quick easy handling and storage of stencils.

Optional reflective glass bead system makes bead application uniform, fast and efficient.

Let Kelly-Creswell engineer a unit to meet your specific needs.

Kelly-Creswell a name that has defined striping since 1937
